## ***Technoesis Services for Redevelopment Projects***

*For redevelopment projects entrusted to us, Technoesis provides consultancy services right from the assessment of feasibility to completion and hand over of the buildings to the Society. Broadly, our services are provided under three distinct phases of redevelopment as follows:*

### **Phase I: Project Feasibility**

Redevelopment is a techno-commercial activity. Therefore, it is necessary to ascertain its feasibility before such a step is taken. In fact, whether to go for redevelopment at all and how much financial benefit one should expect from such a proposal would depend on the feasibility report. In this phase, we provide the following services:

1. Studying property documents, plans, remarks, physical survey etc provided to us by the Society
2. Preparing a statement of carpet areas based on the carpet areas of individual flats/shops provided by the Society
3. Estimating various project costs on account of TDR, construction cost, rent, brokerage, transportation, bank guarantee, municipal premiums, professional fees of Society's consultants etc
4. Preparing a Feasibility Report as per prevailing DCR & estimating probable benefits to the members in form of extra carpet area and hardship compensation/ corpus fund. The report shall be based on utilization of area only. Preparation of plans is not covered in this scope
5. Contents of the Feasibility Report shall be as under:
  - Technical Feasibility: Reference Documents, Background Information, Assumptions (General and Specific), Advantages and Limitations
  - Financial Viability: Detailed Feasibility Calculations
  - Statement of Estimated Cost, Revenue and Returns
  - Statement of Utilization of Plot Potential & Allocation between Society and Developer
6. Member Benefits (Extra Carpet Area, Hardship Compensation, Rent, Brokerage, Shifting Charges and Car Parks)
7. Presenting the Feasibility Report in the Society's General Body Meeting

### **Phase II: Tendering**

We shall prepare a tender document based on the parameters specified by the Society. The tender document shall be prepared on behalf of the Society and the same shall form a uniform basis for selection of a developer. We shall provide the following services in this phase:

1. Preparing Tender Document consisting of the following bids
  - **Part A: Technical Bid**
    - Tender notice and important features of the proposal
    - Instructions to bidders
    - Scope of work
    - Pre-qualification Information to be provided by bidders
    - General conditions of contract
    - Special conditions of contract
    - Work Specifications & Amenities
    - List of documents to be submitted by bidders
    - Undertaking by bidders
  - **Part B: Commercial Bid**
    - Additional Carpet Area/ Hardship compensation
    - Compensation for alternate accommodation
    - Free car parks
    - Performance Bank guarantee
    - Professional fees for Society's Consultants

## ***Technoesis***

- Reimbursement of Society's expenses, if any
- Stages of release of various payments
- 2. Discussing the Tender Document and incorporating Society's suggestions
- 3. Suggesting draft for advertisement (Tender Notice) in a newspaper
- 4. Providing technical support for tendering
- 5. Attending a pre-bid meeting, if necessary
- 6. Opening bids at the Society's Premises
- 7. Preparing a comparative statement of bids received
- 8. Providing technical support for selection process including joint meetings, visits to shortlisted developers' ongoing projects and negotiations with the developers
- 9. Preparing a final report on tendering including shortlist of bidders

### **Phase III: Project Monitoring**

Our services in this phase shall be provided as under depending on the stages of construction:

#### **Pre-execution Stage**

1. Review of the First draft and Final draft of Redevelopment Agreement to check conformity with the provisions of Tender Documents
2. Review of architectural plans provided by the developer and help Society during approval of the plans before they are submitted to MCGM
3. Review Master Schedule & Milestones prepared by the Developer
4. Verification of plans and flat areas approved by MCGM wrt the agreed plans

#### **Execution Stage**

1. Monitoring quality of work with reference to working drawings provided by the Developer and materials and brands specified in the Redevelopment Agreement
2. Monitor progress of work with reference to the Approved Project Schedule
3. Deploying designated personnel at site for day-to-day monitoring of progress of work during construction period, after the construction work is started
4. Issuing site instructions to the Developer's site-in-charge, whenever necessary
5. Weekly site visits by our Project Coordinator
6. Checking test reports for important structural materials received from the Developer from time to time
7. Recording deviations in quality of work at the site so that the Society can take necessary action
8. Participating in monthly review meetings and preparing minutes of meeting
9. Submitting monthly progress reports to Society
10. Inspection of members' flats for amenities before the same are taken over
11. Verification of carpet areas of representative (typical) rehab flats/ shops
12. Inspection of external and common services and amenities in the rehab component before the same is taken over
13. Providing a list of defects in the rehab area to the Society for rectification by the Developer
14. Submission of Project Completion Report

**Online Tracking of Your Redevelopment Project  
On [www.technoesis.co.in](http://www.technoesis.co.in)**

*Welcome to Project Tracker, an innovative technological tool, which enables you to track the progress of your redevelopment project on our website [www.technoesis.co.in](http://www.technoesis.co.in). But that is not the only reason why you would visit the website again and again. The website offers you a whole lot of other things such as Redevelopment Tenders, Downloads, FAQs and so on.*

### **Project Tracker**

*(Developed by Technoesis, Project Management Consultants for Redevelopment Projects)*

Once the members of the Society have vacated their flats and moved to temporary accommodation, the existing building is demolished and construction of new building starts. During the construction phase of 24 months or so they may wonder about the progress of work at their plot and may like to get regular updates about the project status.

Technoesis' Project Tracker helps the Society members to remain regularly informed about the progress of work and the current status of the project by simply visiting our website. Our clients who subscribe to this service are given a user login and password, which they may distribute to their members. Thereafter, any member can visit our website and view the current status report consisting of the current photograph of the construction work, previous month's progress report, minutes of the last progress review meeting held at the site and other remarks about the work progress. Quite an easy way to track your project month after month, isn't it?

The status report is updated once a month and can be viewed by visiting the site any number of times during the period of subscription. It is expressly intended for the members of the client society and not for any other persons.

Technoesis' Project Tracker enhances transparency to a new height. However, the users must remember that the information about their project would be available to anybody having the knowledge of their user login and password and, therefore, it would be entirely their responsibility to ensure that the same is not passed on to unauthorized persons. Technoesis accepts no responsibility whatsoever, direct or indirect as regards the security of user login and password or the content of the status report.

Guest visitors who would like to know about Technoesis' Project Tracker may view a demo by logging in with the following details:
